SALINE COUNTY, KAN., Dist. No. 1. EDITOR JOURNAL-Tuesday last was set apart by both teacher and pupils for a general good time. Dame Nature lent her aid, the day being all that could be desired. The pupils began to arrive as early as 9 o'clock a. m., and by noon the school yard presented the appearance of a camp meeting, were one to judge by the carriages and number of

Then there was a diving into huge baskets, and the contents brought forth and tastefully arranged by the ladies on three large tables, one of which extended the entire length of the building. The latter was for the children, and no pains were spared to make this table especially attractive. Great credit is due the ladies for their cultnary skill, as all will testify who partook of the bountiful repast, which consisted of everything that heart could desire. After dinner all who desired repaired to the park which lies in a bend in the Smoky Hill, where amusements were indulged in, prominent among which were croquet, boating and target shooting. Ernest Moyer distinguished himself by carrying off the prize as the best shot. Swings were constructed for the children and not until it was announced that Atherton of Salina had arrived, did the happy throng return to the school house. In a very short time all were photographed, the group including all ages from the infant to the grayhaired man. But this eyen did not end the festivities, H. G. Jennerson, the worthy teacher, had prepared a treat for the children, consisting of oranges and candy of which every-

Then many went homeward while others resumed their amusements till the shadows fell.

In the evening a literary program was presented, which did credit to both teacher and school, and was listened to by a large and attentive audience. It was declared by all the most enjoyable time ever had by the community at the close of the school year. May they continue this good

long long time since election day, but perhaps it is because (true to my name) I got left. As a man and his wife are said to be one (and she is the largest) I thought under the new administration I would get an office, but would you believe it, I made application for not only marshal and street commissioner, but down to street cleaner, and failed. I think it is my unforunate name, but I depended on my wife's influence and still got left. Since we got so badly beaten the Suffrage folks feel that victory is won, and it is said that many plans are being made for the benefit of man, not only it improve his morals but to teach him more sense than to vote against delegation of women seat down to Oklahoma to civilize and enlighten the heathens now congregating in vast numbers in the promised land. The Agricultural College draws to Manhattan many distinguished men. Among those of note is Dr. Martin Wilckins, of Austria, who visited the college yesterday and this forenoon. As we go to press, Mayor Roberts, Geo. F. Tompson and the doctor are driving over the city. The doctor is professor of agriculture and forestry in the Royal College of Vienna, Austria, and has spent the past six weeks in America, making an examination of the agricultural colleges a special object. He goes from here to California. We were much pleased with a short chat with him; and we believe he will carry with him pleasant thoughts of our city.

Lindsborg News: The intelligence that Mr. Joseph Lehman (better known in the early days as Joe Lemon) a former and time-bonored citizen of this county, has become totally blind, will cause sincere grief among all old settlers of McPherson and Saline counties. Mr. Lebman was among the first settlers of central Kansas, locating in 1858 on the Smoky Hill river near where the city of Elisworth now stands, where he in company with Capt. D. H. Page conducted a stage ranche for a number of years. Later he located one mile southeast of Satina and in 1868 settled on the S. W. lina and in 1868 settled on the S. W.

1 of section three in Smoky
Hill township, this county, where
he resided until the death of his
wife in 1875. He then sold his land
to Mr. Joseph P. Duncan and removed to Colorado, near Gothic
City, locating some silver mines.
The attack of inflamatory rheumalism necessitated a change of locality, hence settled near Gunnison
City, where he has since resided.
But continued sickness resulted in City, where he has since resided. But continued sickness resulted in paralysis of one limb and finally in total blindness. Mr. L. is held in the highest esteem by all his acquaintances and he and his children—three bright boys and one girl (who have and are now caring for their beloved father as only children can), have the sympathy of all our citizeus in his misfortune.

Possibly a mistake prevails in the public mind as to the real cause of Mr. Haistead's rejecton by the senate. Even the Post, which has discussed the matter with great fairness and impartiality, appears to have lost sight of or prudently ignored some points in Mr. Haistead's record that may have had much greater influence in determining the action of the senate than what he printed in his paper concerning the Payne senatorial investigation. Indeed it is difficult to account for the voices of all the protesting senators on the latter hypothesis. Were there no other reasons less personal to themselves and construed much more to Nr. Haistead's disadvantage, that had much to do with the defeat of his nomination? Read the following letter, written by Mr. Haistead to etter, written by Mr. Halstead to

OFFICE CINCINNATI. DAILY AND WREKLY CONMERCIAL Fourth and Race Streets. CINCINNATI, Feb. 19, 1861,

Governor Chase:

My Dear Bir:—I wrote you a somewhat fantastic letter the other day. But that I suppose is not strange. I write this morning to send you a copy of a private letter I have from our army in front of Vicksburg. It is from a close observer, who endeavors to tell the truth. eavors to tell the truth.

deavors to tell the truth.

There never was a more thoroughly disgusted, disheartened, demeralized army than this is, and all because it is under such men as Grant and Sherman. Disease is decimating its ranks and while bundreds of poor fellows are dying from smallpox and every other conceivable malady, the medical department is afflicted with delirium tremeus. In Memphis smallpox patients are Memphis smallpox patients are made to walk through the streets from camps to hospitals, while drunken doctors ride from barrooms to brothels in government ambulances.

* * How is it that Grant who was behind at Fort Henry, drunk at Donelson, surprised and whipped at Shiloh, and driven back from Ox-Grant's superior. McClellan, Fre-mont, McDowell, Burnside, Franklin, even t'ope or Sumner, would be

The army west and east is being weakened hourly by desertions. It is the great evil. The thing needful to stop it is for the president to give each commander of the departments power to shoot deserters.

They must be shot by the dozen.

The president's weak pulling, piddling humanitarianism is death and hell to the army. Can't you take him by the throat and knock his head against the wall until he is brought to his senses on the war business? I do not speak wantonly when I say there are persons who would feel that it was doing God service to kill him if it were not feared that Hamlin is a bigger fool And yet the pitiful congress twad-

dies weekly in private caucus about political matters, as if a little more nigger would do everything. Why don't they pass your finance measure and the conscript act and mind their own business

their own business?

The proclamation is a positive nuisance to every truly loyal man in the west. It is a weapon in the hands of the Rutternuts. If it is made a party test Vallandingham would be elected governor of Ohio. Do not think I am talking at raudom. Alas! I know what I am talking about. What is it wanted:

First—A general for our army of the Mississippi.

Second—Deserters shot by order he Mississippi. Second—Deserters shot by order

fragments of regiments.

Fifth—Arrest and try Henry May and Wendell Philips for treason.

Governor Chase, these things are true. Our noble army of the Mississippi is being wasted by the foolish, drunken, stupid Grant. He cau't organize or control, or fight any army. I have no personal feeling about it but I know he is an ass.

There is not among the entire list of maior generals, a man who is not of major generals, a man who is not an Improvement upon the present commander of the army of the Mississippi. Will you wake up some of these days and find we have no army of the Mississippi.

Twelve o'clock, noon, of April 22d, 1869, is the time named in the president's the line into Oklahoma. All who intend going should inform themselves fully before starting, as to the easiest, quickest and best way to reach the country in time to secure their homesteads and to be on the ground for business at the earliest nesible mement. Examine the official maps and make no mistake as to your route. The Atchison, Topeka & Santa Fe R. R. is absolutely the only railroad built and operated into and through Oklahoma. Two dally trains in each direction through the country. The U S. Land Office for the eastern land district of Oklahoma se located at Guthrie, directly on the line of the Santa Fe. The U. S. Land Office for the western district is located at Kingfisher Stage Station thirty miles west of Guthris and off the line of any railroad. Kingfisher Stage Station is, therefore, most easily reached via the Santa Fe to Guthrie, thence by stage. This is forty miles less stage ride and twelve hours shorter time than via any other route to Kingfisher. The Santa Fe route connects with the important lines from all parts of the country, and reaches Okiahoma direct from Chicago, Kannas City, Leavenworth, St. Joseph, Atchison, Topeka, Abilene, Sallina, Concordia, Minneapolis, Kannas, McPherson, Newton, Wichita, Winfield, Wellington, Caldwell, Hutchinson, Great Beud, Larned, Dodge City, Denver, Colorado Springs, Pueblo, Trinidad, Las Vegas, Santa Fe, Albuquerque, Socorro, ElPaso, Deming and Silver City.
